PALM BEACH COMMUNITY COLLEGE

President's Report 1987/1988

ABOUT THE COVER: Palm Beach Community College is located in Palm Beach County, Florida. PBCC's four convenient campus locations are close to picturesque beaches, inland waterways, agricultural areas, businesses and industrial communities. This sunrise is typical of the beautiful scenery throughout the County.

2 PROFILE OF PALM BEACH COMMUNITY COLLEGE

PBCC was established in 1933 on the campus of Palm Beach High School which was later known as Twin Lakes High School.

Palm Beach Community College, established in 1933, is the oldest public community college in Florida. PBCC is accredited by the Southern Association of Colleges and Schools and the State Department of Education.

From its beginnings as a co-educational day-student junior college which only emphasized coursework for university transfer, the College has grown to meet the needs of an ever-changing community. Over the past 55 years, PBCC has expanded to provide new and innovative educational programs and has built a reputation for quality education in Palm Beach County.

In June of 1988, the Board of Trustees approved changing the name from Palm Beach Junior College to Palm Beach Community College. The new name more accurately reflects the broad scope of the College's programs and services.

Palm Beach Community College truly serves the entire community. PBCC offers 74 two-year Associate in Arts Degree Programs that lead to transfer to a four-year institution. Over 38 two-year Associate in Science Degree Programs provide vocational education. In addition, 18 non-degree certificate programs provide training for employment. At PBCC, there are also many Continuing Education classes to upgrade job skills, as well as personal enrichment seminars.

Changed name to Palm Beach Community College to more accurately reflect the broad base of community programs and services provided by the College.

Experienced record credit and non-credit student enrollment of 43,000 students for the reporting year.

Honored Edward M. Eissey, PBCC President, for being named an Outstanding Chief Executive Officer of a Community College in Florida.

Reintroduced Weekend College which offers students an opportunity to complete credit courses on Saturday.

Reached an agreement with the PBCC United Faculty on the first two-year contract with economic reopeners possible for 1988.

Honored the Pacesetters, PBCC's vocal performing group, for being selected as the only collegiate group from the Southeastern United States to perform at World Expo '88 in Australia.

Began first PBCC Women's Basketball Team and reestablished the PBCC Cheerleading Squad after a five-year absence.

Excelled in athletics with the PBCC Men's and Women's Tennis Teams placing first in State competition.

Proceeded with construction of the Philip D. Lewis Center for Business and Industry Technology on North Campus.

Awarded bids for construction of the first permanent classroom building on the South Campus, and received state monies to fund the future construction of an adjoining general laboratory building.

Dedicated the Burt Reynolds Student Center on North Campus honoring Burt Reynolds, a PBCC alumnus who has contributed his talents and resources to the community.

4 **PALM BEACH COMMUNITY COLLEGE BOARD MEMBERS**

The Board of Trustees includes (front row) Dr. Philip O. Lichtblau; (second row, left to right) Dr. Bernard Kimmel; Donald H. Reed, Jr. Esq.; (third row) Frances (Dolly) R. Hand, Esq.; and Bettye J. King, Esq.

PHILIP O. LICHTBLAU, M.D., Board Chairman

Dr. Lichtblau, appointed in 1975, is an orthopedic surgeon in West Palm Beach and has practiced medicine since 1953. He is a Board member of the Palm Beach County Medical Society and has been Medical Director of Children's Medical Services in Florida for 30 years. Dr. Lichtblau is Past President of the Florida Orthopedic Society and holds membership in the Florida Medical Association, the American Medical Association, and the American Board of Orthopedic Surgery. He is also Past President of Staff for St. Mary's Hospital.

FRANCES (DOLLY) R. HAND, ESQ., (Mrs. Homer J. Hand), Vice Chairman

Mrs. Hand, appointed in 1973, is an attorney in Belle Glade. She is a member of the Florida Bar Association and the Palm Beach County Bar Association. Mrs. Hand has been a recipient of the Education and Social Service Award from the Executive Women of the Palm Beaches and is Past Vice President of the Belle Glade Chamber of Commerce and a Past Director of the Palm Beach County Council of the Arts. She served as Chairperson of the Belle Glade Bicentennial Committee, the Belle Glade 50th Anniversary, the Black Gold Jubilee, and the Belle Glade Municipal Library Board. In addition, she is a member of the Community Development Board and a Board member of the Bank of Belle Glade.

BERNARD KIMMEL, M.D.

Dr. Kimmel, appointed in 1987, is Chief of Staff at John F. Kennedy Hospital and has practiced medicine in West Palm Beach for 30 years. He served as a member of the Florida House of Representatives in 1980-1982 and 1984-1986. Dr. Kimmel also served as a member of the Palm Beach County School Board from 1972-1980 and was Chairman from 1973-1975. He is Chairman of the Palm Beach County Special Olympics. Active in many civic and medical organizations, he

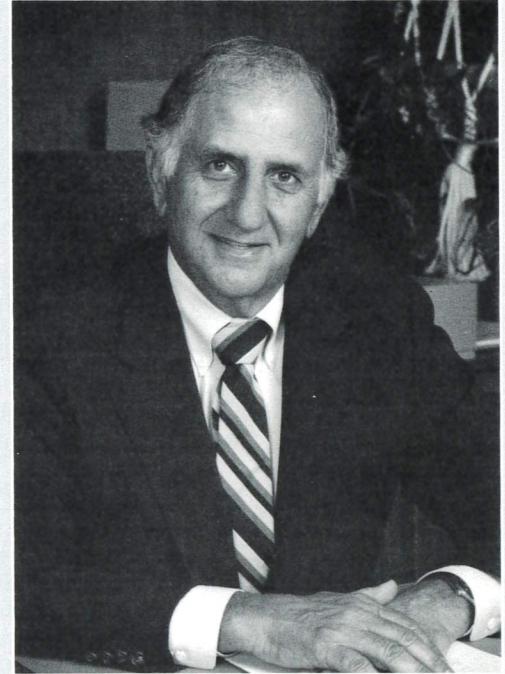

is a member of the Palm Beach County Medical Society, Florida Medical Association, American Medical Association, Florida Academy of Family Physicians, American Academy of Family Physicians, Palm Beach County Legislative Coalition, American Legion, United Coalition of Handicapped Voters, Florida Peace Officers Association, and the American Heart Association.

BETTYE J. KING, ESQ.

Ms. King, appointed in 1987, is an attorney with the firm of Lytal & Reiter. She served as an Assistant State Attorney in Palm Beach County and is Past President of the F. Malcolm Cunningham Senior Bar Association. Ms. King is a Director of the Urban League and the John G. Riley Foundation. As a member of the American Bar Association, National Bar Association, Palm Beach County Bar Association, Association of Trial Lawyers, and the Florida Association of Women Lawyers, she is active in the legal professional circles. Ms. King also holds membership in the Junior League and the Executive Women of the Palm Beaches.

DONALD H. REED, JR., ESQ.

Mr. Reed, appointed in 1987, is an attorney in Boca Raton. He served as a member of the Florida House of Representatives from 1963-1972 and was House Minority Leader for eight years from 1964-1972. Mr. Reed served as Chairman of the Florida Commission on Ethics and Chairman of the Commission on the Future of Florida Public Universities. In addition, he has served as Associate Municipal Judge in Deerfield Beach, Town Attorney for Highland Beach, and Town Prosecutor for Hillsboro Beach. Mr. Reed also is a member of the Florida Atlantic University Foundation and the Veterans of Foreign Wars.

*Edward M. Eissey
President, Palm Beach Community College*

Dear Friends
of Palm Beach Community College:

It gives me great pleasure to share the 1988 President's Report with you. The Report highlights the achievements of Palm Beach Community College during the 1987-88 Fiscal Year, a year filled with challenges, progress, and renewed excitement.

As a former student, a professional educator at many levels in Palm Beach County, a former Trustee of Palm Beach Community College, and President of PBCC for the past 10 years, I have witnessed many changes in the College. This has been a time of growth and development in Palm Beach County, and PBCC has consistently met the educational demands brought by the increase in population.

Recently, the name of the College was changed from Palm Beach Junior College to Palm Beach Community College.

We sincerely believe that the new name more accurately reflects the expanded programs and services that the College offers to the community. This year, approximately 150,000 residents in Palm Beach County were served in some way by the College through classes, seminars, workshops, meetings, and performances at the Watson B. Duncan III Theatre.

Indeed, PBCC has continued to experience significant increases in student population. During this year, we reached a record enrollment of 43,000 credit and non-credit students. Regrettably, we were forced to turn away 1,500 students because of lack of classroom space.

While we are happy to report that our enrollment has skyrocketed, PBCC has received very little funding to build urgently-needed additional classrooms or to purchase up-to-date instructional equipment to support increased enrollment. Over \$90 million in capital improvements is needed to meet educational needs over the next 10 years.

Approximately 30 percent of PBCC's budget comes from student fees and 70 percent is derived from state funds. The State Legislature regulates student fees and sets the level of appropriations for capital improvement projects. Unfortunately, these state appropriations have continued to be limited.

In 1987, we worked for the passage of a local referendum to provide funds for badly-needed construction, renovation, and instructional equipment. The defeat of the referendum may be partially attributed to a special session of the State Legislature regarding taxation and misinformation that the Florida Lottery would provide all funds needed for public education in Florida. In reality, the Lottery provides only three percent of the total state budget for public education. In addition, Lottery funds cannot be spent for capital improvements.

Because of the critical unmet needs of PBCC, we worked diligently during the

1988 Legislative Session to receive State approval to again hold a local referendum. Even with the assistance of many local legislators, the bill did not progress from the State House to the State Senate.

Though the College has faced setbacks in the past years, we are still committed to obtaining the necessary funding to ensure that PBCC's programs and services continue to be available to all county residents. In 1989, we will once more direct our efforts to obtain local voter approval for a quarter-mill ad valorem tax for classroom construction and instructional equipment.

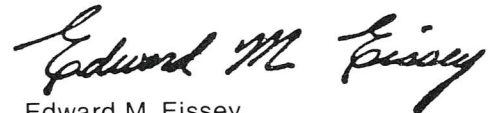

We strongly believe that this investment in PBCC is an investment in the future of our residents. The College is a vital community resource that enriches the people and the economic vitality of the county.

PBCC offers something for everyone. In addition to university transfer and vocational training programs, the College provides training for individuals in services essential to ensuring the quality of life for all county residents. Firefighters, paramedics, police, nurses, dental hygienists, bankers, and postal workers are among the professionals trained at PBCC.

Indeed, Palm Beach Community College is your community college. Your continued support and interest are the keys necessary to maintaining programs of academic excellence. Together, we can meet the challenges which face the College.

Finally, it is my firm hope that you will join me in the coming year to obtain the needed resources for PBCC. I invite you to visit the campus nearest you to learn more about the College.

Yours for Quality Education,

Edward M. Eissey
President

ACADEMIC PROGRAMS

The open admissions policy of PBCC is designed to offer learning opportunities for all who desire College instruction. This includes high school graduates, adults, senior citizens, the academically talented as well as those who need remedial assistance. Students can attend classes part-time or full-time, in the evenings or weekends.

Several activities have been established to improve the communication skills of students who may not be prepared for college-level courses.

PBCC continues to place emphasis on the improvement of written and communication skills. The College continually strives to provide students with opportunities for written expression. Instructors work together to cut across disciplinary boundaries and to set common standards for writing.

In addition, free tutoring in English and mathematics is offered to students on the Central and South Campuses. Centers for Personalized Instruction (CPI) are available on Central, North, and South Campuses. CPI assists students in increasing writing and mathematics skills to qualify for college-level courses. The CPI Lab also prepares students to take special tests such as the ACT, American College Test.

A new offering is English as a Second Language. Completion of this course prepares the student for entry into regular English classes.

Weekend College has been reintroduced on the Central, Glades, and North Campuses. Designed to fit the educational needs of students who can only attend college on the weekend, credit courses and general interest classes are offered. Courses suitable for teacher recertification are also included.

Classes and tutoring are offered to pre-

pare students who have completed a two-year transfer program to take the College Level Academic Skills Test (CLAST), which is a test of college-level communication and computational skills. Students who plan to transfer to a four-year State university must meet certain standard scores on CLAST.

Many new academic programs are available to the students on PBCC's four campuses. One innovation on Central Campus is Tourism, a joint venture of the College and the Palm Beach County Convention and Visitors Bureau. The internship, which results in partial course credit, provides students with work experience in the areas of telemarketing, tour and travel, and public relations.

As the result of a special grant, clinical nursing courses were offered for the first time in the Glades area. This was a joint project with area hospitals.

Several academic programs have also been expanded to meet new national licensing and accreditation requirements. These include Interior Design, Chef Apprenticeship, Paramedic, Emergency Medical Technician, and Criminal Justice.

The North Campus Library and Learning Resources Center (LLRC) hosted two very special events this year. Of particular interest was the rare public appearance of Pulitzer Prize winning author James A. Michener, who generously shared his writing secrets and philosophy of life with persons who attended. Michener is well known for his numerous best sellers which include *South Pacific*, *Centennial*, *Hawaii*, *The Source*, *Texas*, and *Legacy*.

The other LLRC activity was the Literary Forum which featured special seminars, reception, and luncheon honoring South Florida authors. The Forum provided valuable information to aspiring writers. Among those notable authors present were Sidney Clary, Sarah Clemens, Bessie Dubois, Edith Delatash, Charles DeLuca, Barbara Gibson, C. Colburn Hardy, David Kaufelt, Judge James Knott, Sharon

James A. Michener, celebrated author, visited North Campus to share his writing secrets.

Komlos, Mary Linehan, Vincent Miranda, Roxanne Pulitzer, Dr. Barry Russal, Jacqueline Wall, Jim Warnke, and Donald Wenberg.

The PBCC Center for Business and Industry coordinated a new training partnership program, Sunshine State Skills. This grant program allowed implementation of training courses at Pratt and Whitney and at Motorola, two major Palm Beach County employers. The College recruited instructors, developed curriculum and training modules as well as provided instruction. As a result of the success of these training partnerships, other training programs are being planned to assist local business and industry.

Continuing Education offerings include non-credit programs, courses, and projects in occupational, developmental, and avocational fields of study. Central Campus Continuing Education expanded their offerings for Allied Health Professionals. Other new courses included Aviation for the Non-Pilot and Introduction to Horsemanship.

In cooperation with the National Conference of Jewish Women, the PBCC Institute of Government presented the State Legislative Day. The event gave an overview of the 1988 Legislative session. A panel of State legislators answered questions on specific issues.

The Florida Association of Community Colleges awarded PBCC's Senior Players with a Regional Award in Lifelong Learning, and they placed second in the State Competition. The Senior Players are well known in Palm Beach County for the short dramatic skits they write and present at area retirement residences. The group also produces taped dramatizations for the blind.

North Campus Continuing Education piloted an innovative program to deliver educational services to business and industry. It is the Job Training Partnership Act (JTPA) Program.

This performance-based job training program is targeted for the long-term, unemployed person. The program provided free tuition and instructional materials funded by the Job Training Partnership Act. Thirty-five students completed 120 hours of instruction in data entry and word processing. As a result, 29 students were placed in full-time jobs.

Student Academic Achievements

Several student groups excelled in performance and scholastic achievements. One major honor was the selection of the PBCC vocal performing group, the Pacesetters, to represent the Southeastern United States at World Expo '88 in Australia. They were the only collegiate group from this region selected to perform at the International Exposition.

The Pacesetters raised over \$80,000 to fund travel costs for the 25 performers. In addition to fund-raising events such as car washes, many local individuals and businesses donated funds for the trip.

This year, three successful student drama productions were held at the Watson B. Duncan III Theatre on Central Campus. The Fall performance of "Holy Ghosts" gained the student performers an invitation to appear in the Southern Regional Finals of the American Theatre Festival Competition. The Children's Theatre and the Spring Musical, "Pirates of Penzance," brought record attendance and rave reviews from audiences.

PBCC Nursing Students excelled on recent Registered Nurse State Examinations. Of the 20 PBCC students who took the examination, 19 passed for 95 percent passing rate. The State passing rate was 87 percent. The average PBCC score was 21.31 compared to 19.54 for the State.

The Board Scores for Dental Hygienists continue year after year to surpass the State average scores. This year, 22 out of 24 Dental Hygiene Students passed the

Florida State Board Examination for a 92 percent passing rate.

Fashion Design students were selected as finalists in the National Fashion Competition. Michael Blue, Jill Zook, and Linda Howell were chosen for their original design sketches.

PBCC Chef Apprentice Barry Gair was awarded a Gold Medal for his entries in the Southeast Apprenticeship Culinary Salon. Gair is one of 14 chefs who received an expense-paid trip to participate in the International Culinary Competition in Frankfurt, Germany.

Faculty Achievements

PBCC's faculty is a dedicated group of professionals whose main concern is academic excellence. Our 629 full-time and adjunct faculty bring experience and skill to the classroom setting. Each instructor works to bring frequent personal interaction into the learning environment and to actively involve each student in the educational process.

This year, faculty achievements included several awards and publications. Central Campus Nursing Instructors Dr. Judy Campbell and Dr. Noreen Poole wrote "Personality Disorders," which is a chapter in *Psychiatric Nursing*. The textbook has been published nationally for use in mental health classes.

Clement Imhoff, Instructor on the South Campus, with the help of community leaders, developed an oral history of the Black Community of Delray Beach. Plans are underway to publish the findings. Imhoff has also completed interviews and has developed tapes in preparation for a video. He has been selected as a presenter for this year's National Historical Society meeting.

Another South Campus Instructor, Dr. Carol Wershoven, co-authored *Writing Through Literature*, a textbook in freshman composition.

The Pacesetters, PBCC's vocal performing group, represented the Southeastern United States at World Expo '88 in Australia.

A swashbuckling pirate from "Pirates of Penzance," the Spring student drama production.

Dr. Harris McGirt of South Campus received an Exemplary Practice Award from the Florida Association of Community Colleges for a new recruiting technique entitled "Have One On Us." The unique program allows anyone with a coupon to attend two class meetings at PBCC South, providing prospective students with the opportunity to decide if they want to enroll in classes.

Vice President of Academic Affairs, Dr. Patricia Dyer, received a three-year appointment to "Mathematical Sciences in the Year 2000 Oversight Committee" of the National Research Council.

STUDENT AFFAIRS

Services

Student Affairs Programs provide opportunities that support academic achievement and a campus life that develops social abilities. Services include counseling, testing, career planning, job placement, and programs for ethnic, minority and international students.

Beyond the classroom are opportunities for fun, friendship, and new experiences. Students participate in clubs and organizations including student government and special interest clubs. A wide variety of athletic activities are also available.

While tuition at PBCC is lower than most educational alternatives, some students require financial assistance. This year, academic and need-based scholarships, as well as other types of financial aid, assisted 1,417 students. The dollar amount of financial aid for students was over \$1.9 million, an increase of nearly 200 percent over last year.

Number One Honor Society in USA! Members of the South Campus Chapter of Phi Theta Kappa are pictured with Eissey and Faculty Advisor Beverly Raznoff.

An exceptional innovation in recruitment programs was the introduction of "Fast Break," a summer college-preparatory program designed to acclimate minority students to PBCC. They participate in career decision making as well as activities to strengthen skills in English, mathematics, and reading. Forty students completed the program and subsequently enrolled in PBCC.

Another major achievement was the addition of a new computerized degree audit, academic, and advisement system which was implemented by the Registrar's Office. The system makes complete student transcript and academic information quickly available to counselors, academic advisors, and students.

Student Organizations

Members of several PBCC student organizations have been active in community affairs and were honored with State and National Awards.

The South Campus Chapter of Phi Theta Kappa (PTK) received the Most Outstanding Chapter Award at the State Convention. In addition, they were the recipient of the Chapter Milestone Award on the National level, being selected from a field of over 800 other organizations.

During the year, the PTK group was involved in an Outreach Program to prevent high school students from dropping out before graduation. In addition, they held a Bowl-a-thon to collect funds for a shelter for neglected and abused children.

Also on the National level, the Central Campus Chapter of Phi Theta Kappa received an award for their entry "Blessings of Liberty," in the Photo Contest.

The Central Campus Business Club, Delta Epsilon Chi, had five winners in the State Career Development Competition. Kris Savignac and Robert Wonyetye were first place winners at National competition in Salt Lake City, Utah.

After being formed only one year ago, the North Campus Debate Team placed first in the State Debate and Forensics Tournament. Members of the winning team were Bryan Poulton, Doug Lewis, and Maureen Rabb.

The North Campus Chapter of Phi Beta Lambda, a business organization, won 18 awards in District competition. In State competition, Ron Gottlieb, Debbie Dubois, and Susan Joynes received top awards. Gottlieb also placed eighth in National competition.

On South Campus, a Chapter of Sigma Delta Mu National Hispanic Honor Society was established. The organization is for students who have attained excellence in the study of Spanish.

Athletics

Academic excellence for PBCC athletes gained new emphasis this year by stressing the point that winning begins in the classroom. Athletic staff met regularly with instructors in an attempt to monitor the athletes' academic progress. Students were supervised during regular study halls, and tutoring was provided for those needing extra academic attention.

Athletes excelling in academics were given special recognition at the year-end athletic banquet. Top winners of the Scholar Athlete Awards were Elisabeth Gibson, Tennis Player, with a 3.9 grade point average; and Gar Finnvoid, Baseball Player, with a 3.27 grade point average.

A special scholarship fund was established in the memory of Gregory Kennard and Randall "Rick" Rhoden who were tragically killed in an automobile accident this year. Both students were starters on the Pacers Baseball Team.

At the World Championships in Santo Domingo, the Pacers Baseball Team represented the United States. They were

Members and support staff of the first PBCC Women's Basketball Team in the history of the College.

The Women's Tennis Team won the State Championships and placed fourth in the Nationals.

the only team selected to represent this country.

For the first time in the history of the College, a Women's Basketball Team was established at PBCC. The team finished second in State competition and had a season record of 21-6.

An added feature this year was the reactivation of cheerleading after a five-year absence. The squad cheered PBCC's teams to a very successful year of athletic competition.

ADMINISTRATIVE AND BUSINESS AFFAIRS

This year, construction of the new Philip D. Lewis Center for Business and Industry Technology, located on the North Campus in Palm Beach Gardens, began. The building contains 36,545 square feet of space, and upon completion in Fall term of 1988, will provide much-needed classrooms and laboratories for the North Campus. It will be ready for classes in January of 1989.

After years of operating from portable modulars, construction is now underway on the first permanent building on South Campus. It is scheduled for completion in the Fall of 1989. Architectural plans for an adjoining building are in progress with groundbreaking to occur early in 1989.

Participating in the Groundbreaking Ceremony for the Philip D. Lewis Center at the North Campus were (left to right) Edward M. Eissey, Former State Senator Philip D. Lewis; and Clark Maxwell, Executive Director of the State Board of Community Colleges.

On Central Campus, several renovation and remodeling projects were completed including the installation of new lighting in the Gymnasium, an energy management system, improvements to the Technical Building and Technical Lab Building, reroofing of several buildings, improvements to the Cafeteria, asbestos removal, and installation of a security system in the Watson B. Duncan III Theatre.

Renovations on other campuses included the addition of two portable buildings on South Campus, as well as improvements to the vending area and parking lot. A student lounge area was created on Glades Campus, and repairs were made on the Dolly Hand Cultural Arts Center and the cooling tower. Library lighting and exterior surface treatments of all buildings were made on the North Campus.

The Personnel Department underwent several significant changes this year beginning with the conversion to a new payroll/personnel system. In addition, an "Employment Hotline" was added to provide job information by telephone to interested applicants. The name of the Department also changed to Human Resources.

The first two-year contract with the United Faculty of PBCC was ratified on July 8, 1987. The initial contract included an eight percent across the board raise. During economic reopeners in June of 1988, the union accepted a 10 percent raise in salary for 1988-89.

Retirees were honored by the College at the Employee Appreciation Luncheon. Included in this group were: Barbara J. Bartels, Donald H. Busselle, Alice P. Carlisle, Wiley C. Douglass, Charles G. Graham, William C. Hayes, Robert C. Moss, John W. Platt, Sara C. Smith, and Delores Seemayer.

At the year-end All-College Meeting, Service Award Programs were also held to honor employees who have worked for the College for several years.

Watson B. Duncan, III accepted the singular award for the feat of staying with Palm Beach Community College since August 1, 1948. He has been with the College for a grand total of 40 years.

The recipients of the 30-year awards were:

<i>Batson, Robert L.</i>	<i>Leahy, Francis L.</i>	<i>Tate, G. Tony</i>
<i>Bell, Roy E.</i>	<i>Platt, John W.</i>	

The 20-year service awards were presented to nine employees. Those who have been with the College for 20 years included:

<i>Arant, Odas E.</i>	<i>Hitchcock, Paul W.</i>	<i>Roberts, Marie C.</i>
<i>Belleman, Barbara R.</i>	<i>McLaughlin, Frank J.</i>	<i>Slatery, William P.</i>
<i>Gross, Irving J.</i>	<i>Perez, Frank H.</i>	<i>Schmiederer, John M.</i>

Those who have been with the College for 15 years also received service awards. The 15-year honorees included:

<i>Bartels, Barbara J.</i>	<i>Frawley, Barbara G.</i>	<i>Plager, Edith M.</i>
<i>Bell, M. Alicia</i>	<i>Goldstein, Robert F.</i>	<i>Poole, Noreen K.</i>
<i>Butler, Carol S.</i>	<i>Harden, Donna A.</i>	<i>Rees, Dorothy E.</i>
<i>Carroll, Marjory R.</i>	<i>Jackson, Solomon</i>	<i>Steckler, Ann</i>
<i>Conti, Lori</i>	<i>Johnson, Ardease G.</i>	<i>Terhune, Dan L.</i>
<i>Davis, Frankie D.</i>	<i>Kirkhart, Jacob L.</i>	<i>Vazquez, Marilyn C.</i>

A total of 19 service awards were given to those who have been with PBCC for 10 years. Those recipients included:

<i>Boden, Bruce P.</i>	<i>Foote, Diana L.</i>	<i>Purtz, Carl F.</i>
<i>Boorman, William W.</i>	<i>Garvey, Robert E.</i>	<i>Randolph, James A.</i>
<i>Bruton, James L.</i>	<i>Goldstein, Norman L.</i>	<i>Smardin, Toby</i>
<i>Cassidy, Paul A.</i>	<i>Greene, Addie L.</i>	<i>Tatman, Marla L.</i>
<i>Dalton, Laura J.</i>	<i>Holloway, Joan H.</i>	<i>Taylor, Mary E.</i>
<i>Dionne, Leslie M.</i>	<i>Jones, Robert D.</i>	<i>Woolfe, Elizabeth A.</i>
<i>Farmer, Carol J.</i>		

Five-year service awards were presented to 41 employees. Those honored included:

<i>Alber, Lise I.</i>	<i>Haveard, Sharon S.</i>	<i>Nixon, David H.</i>
<i>Bailey, Joseph N.</i>	<i>Hool, Gloria J.</i>	<i>O'Brien, Joseph E.</i>
<i>Bethel, Ronald</i>	<i>Horvath, Nancy P.</i>	<i>Oleck, Richard N.</i>
<i>Brandy, Erin L.</i>	<i>Imhoff, Clement T.</i>	<i>Pride, Joann</i>
<i>Bryant, Ronald M.</i>	<i>Jackson, Phillip R.</i>	<i>Ray, Charlie L.</i>
<i>Carton, Shelley H.</i>	<i>Kenney, Edward M.</i>	<i>Raznoff, Beverly S.</i>
<i>Castillo, Ann K.</i>	<i>Kruger, Joyce A.</i>	<i>Sargent, Donald A.</i>
<i>Cavallaro, Maureen M.</i>	<i>Linder, Ronald T.</i>	<i>Shoultes, Terrell W.</i>
<i>Collins, Sandra J.</i>	<i>Mack, Walter K.</i>	<i>Syrjala, Marie E.</i>
<i>Culligan, Gloria M.</i>	<i>McCoy, Gary R.</i>	<i>Trewyn, Raymond J.</i>
<i>Drawdy, Kathleen C.</i>	<i>Medlock, Barbara J.</i>	<i>Walter, Norma A.</i>
<i>Fields, Melvin B.</i>	<i>Neal, Verla G.</i>	<i>Wershoven, Carol J.</i>
<i>Gibson, Stephen M.</i>	<i>Neumann, Joseph A.</i>	<i>Wood, James B.</i>
<i>Glover, Mattie M.</i>		

PLANNING AND INFORMATION SYSTEMS

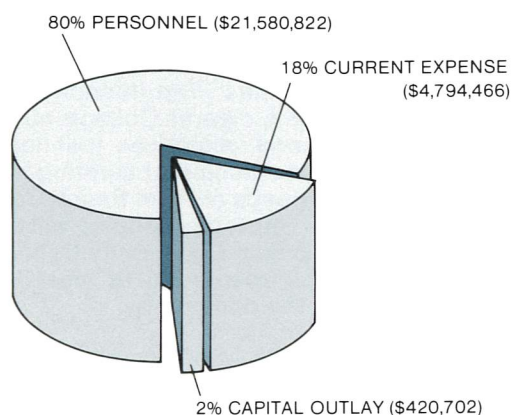

PBCC has begun a strategic planning process to prepare for community needs. The process will include extensive study and survey of the business and civic communities. The intended result is to provide a clearer College mission with goals and objectives that lead to the desired outcome of meeting the educational needs of Palm Beach County residents. Strategic planning will help guide Palm Beach Community College in real-locating resources to most effectively serve the community.

Along with strategic planning, the College is increasing its emphasis on marketing. The News Bureau has been renamed College Relations and Marketing in preparation for the expanded focus.

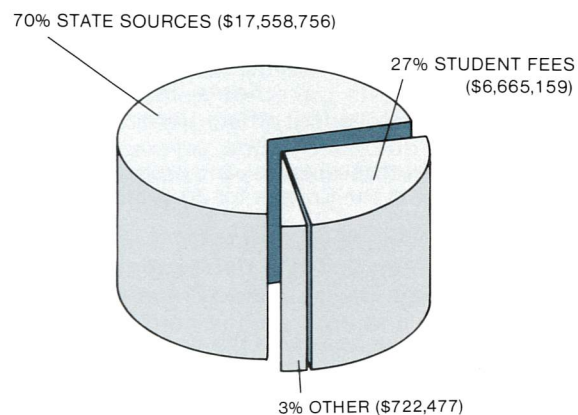

Computerization to improve efficiency continues to be a priority of the College. This year, Data Processing has assisted the Central Campus Library in computerizing the inventory of books. A wand-scanning device, connected to a portable computer terminal, inventories books on the shelf.

Another major project was the installation of an enhanced payroll and personnel system. Data Processing also increased the capabilities of the College's main frame computer and converted to a new operating system. PBCC is now connected by computer with the Florida Information Resources Network which allows direct exchange of documents.

FOUNDATION

The Palm Beach Community College Foundation was established in 1973. Its purposes are to encourage, solicit, receive, and administer gifts and bequests of property and funds. The efforts of the Foundation are especially important in helping PBCC find resources beyond the traditional ones. The four areas of funding priorities include student scholarships, faculty and staff enrichment, campus beautification, and an academic trust fund.

During the 1988 Business and Education Partnership Awards in June, special recognition was given to supporters of the College. This year's winners were Jonathan's Landing, Motorola, and Atlantic Coast Dental Research Clinic.

Winners of the Award are selected for providing assistance to PBCC students through co-op, internship, full-time and part-time work programs, as well as support in the form of human services and activities for the advancement of PBCC. Support may also be in the form of student financial aid or equipment donations for instructional or general use. In addition, a business may be considered for an award based on activities advocating the College and its educational programs in a political situation on a local, state, or national level.

The Five Mile Run, co-sponsored by First American Bank, was held in October with over 300 persons participating in the annual event. The Run raised \$3,000 for PBCC's Beautification and Environmental Enhancement Program.

Several golf tournaments to raise funds for scholarships were also held this year. The South Campus Tournament brought in \$3,500, and the North Campus Tournament raised \$8,000. In their very first tournament, the Glades Campus raised \$4,100. In addition, the Mayo Smith Golf Tournament on Central Campus was held to fund athletic scholarships.

During the 1988 Business and Education Partnership Ceremony, Richard Plowman, Jonathan's Landing; Scott Shamlin and Merle Gilmore, Motorola; and Dr. John Briggs, Atlantic Coast Dental Research Clinic accepted top awards.

Record time at finish line of the Five-Mile Run.

The Foundation's Annual Meeting was held in March. Former Speaker of the United States House of Representatives, Thomas "Tip" O'Neill, was present to speak on the importance of education.

During the Annual Meeting, the Board addressed activities to bring the attention of community leaders to the College and to find ways to build the Foundation into a major source of support for PBCC. As a first step in that process, a promotional video was completed. It highlights the programs and services of the College and is used to enlist financial and alumni support. Hopefully, the video will be a giant step toward increasing public awareness of PBCC.

Among those present for the Annual Meeting were Robert M. Montgomery, Jr., PBCC Foundation President; Edward M. Eissey, PBCC President; Thomas "Tip" O'Neill; and Mr. and Mrs. George Barbar.

The following community leaders are members of the PBCC Foundation Board of Directors:

Robert M. Montgomery, Jr., President
Herbert P. Benn, Vice President
Edward M. Eissey, Secretary
Stanley Brenner, Treasurer
Nancy G. Cherry, Executive Director
George Barbar
R. Michael Caldwell
Max Davis
E. Llwyd Ecclestone, Jr.
John Gary
Gorden Gaster
Frances (Dolly) R. Hand
Arthur Hillbrath
Liska Hooker
William Howden
Daniel H. James
Gary E. Jones
Philip O. Lichtblau
John Linstroth
John R. McCranels
John S. McRoberts
John B. Marion
Mary Montgomery
Richard G. Myers
Jesse D. Newman
Donald H. Reed, Jr.
Burt Reynolds
Muriel Shapiro
Bren Simon
Jeanne St. John
Roy Talmo
John W. Temple
Victor P. Whitney
Herbert J. T. Wilson

ALUMNI ASSOCIATION

The Palm Beach Community College Alumni Association was established in 1953 for the purpose of helping students and faculty promote PBCC's many educational programs. The Association is involved with programs such as "Dollars for Scholars," part-time and full-time job placement, campus improvement, and beautification.

Membership is open to any student who has earned credit at PBCC. There are no dues; however, all contributions are welcomed.

An educational work study program, "Dollars for Scholars," was launched this year with a donation of \$15,000 from Sun Bank. For every \$10 in donations, the State contributes an additional \$6. To date, over \$28,000 has been collected for the fund.

Students in the program are paid for their work in various College departments. They are provided with the opportunity to learn the background and skills of their chosen fields, while at the same time earning money for school.

To promote communication about the Alumni Association, the first alumni newsletter, *Pacer Pages*, was printed in August. Max Davis, current Alumni Association President, sponsors this publication, which features information about past and present students as well as updates about PBCC's programs.

Another noteworthy accomplishment of the PBCC Alumni Association was the official dedication of Alumni Alley, which is located in the Paul J. Glynn Student Services Building on Central Campus. Alumni Alley features historical photos and mementos of the College.

The dedication of the Burt Reynolds Student Center on North Campus was also of special interest to PBCC Alumni. Burt Reynolds, one of PBCC's famous alumni, was present for the dedication. The event, held in August, honored Reynolds

for contributing his talents and resources to the community.

The Burt Reynolds Student Center houses the bookstore, cafeteria, meeting rooms, and a game room. Future plans call for the addition of a career center, a job placement office, a counseling office, and health clinic.

Burt Reynolds speaks at the dedication of the North Campus Student Center.

The following individuals serve on the PBCC Alumni Association Board of Directors:

Max Davis, President
Winston Dodge, Vice President
Dean Paul J. Glynn, Alumni Advisor
Clarence Anthony
Betty Davis
Jeanie Dodge
Edward King
Paul Harman
William Harman
Donald Rott
Ken Tose

Dean Paul Glynn and Alumni Association President Max Davis view historical photos in Alumni Alley.

CAPITAL IMPROVEMENTS PLANNED FOR 1988-1989

The close of the 1987-88 Fiscal Year brings plans for new construction projects at PBCC. Among these are the Raymond F. Kravis Center for the Performing Arts and the first permanent building on the South Campus.

The Raymond F. Kravis Center for the Performing Arts is a model of community leadership and cooperation. Funds for the \$38 million project are from a variety of sources. The land for the site and an additional \$10 million was approved by the Palm Beach County Commission in 1984. The State Legislature appropriated an additional \$10 million in matching funds. Donations from local individuals and businesses have funded the remaining costs.

Model of the Raymond F. Kravis Center for the Performing Arts at Palm Beach Community College.

The Center is designed for educational performances, as well as a variety of music, dance, opera, theatre, and community events. The building will house 2,200 seats and 30 private boxes. Approximately 200 performances a year are to be scheduled. It will attract some of the most famous performance companies from South Florida and around the world.

Located on the northeast border of the Lake Worth Campus, the Center will be visible from I-95, Lake Worth Road, and Sixth Avenue South. It will be 14 stories high and will contain 180,000 square feet of space.

Architectural plans for the Center are being completed this year, and bids for construction are expected to be released in October of 1988. Groundbreaking festivities are planned for December of 1988, and completion of the facility is scheduled for the Summer of 1991.

Also completed this year were the architectural plans and bids for the first permanent building on the South Campus. Construction of the General Classroom Building will begin in July of 1988. It is expected to be completed within a year.

The 1988 State Legislature approved \$2,424,242 in funds for the future construction of a General Laboratory Building to adjoin the South Campus Classroom Building. The Laboratory portion will house science, general art, and engineering labs. A courtyard will connect the Laboratory Building to the Classroom Building.

The State Legislature has also approved \$222,600 for renovation and expansion of the Fitness Center on Central Campus.

In addition to the construction of these projects, many other capital improvement projects are needed to meet educational demands for Palm Beach Community College. The projected needs are listed on the next page.

NEW ACADEMIC PROGRAMS PLANNED FOR 1988-1989

Palm Beach Community College has planned several exciting new courses for the coming year. These new courses, along with the expansion of existing programs, will help to meet the educational needs of Palm Beach County.

On Central Campus, the Personal Computer (PC) Institute will provide business students with short-term courses in the use of computer software. A variety of one-hour classes will be offered on the weekend, giving students an opportunity to take several courses quickly and to build expertise in PC Starter, DOS, Lotus 123, D-Base, or Desktop Publishing.

Also for business students, the Office Systems Technology Program has added a course in computers and a new Associate in Science Degree in Micro Computer Applications. A wide variety of software packages will be explored to train students to serve as consultants for related topics.

The North Campus has announced a new Respiratory Care Program to begin Fall term of 1988. Funding is being provided by donations from area hospitals, health care providers, and businesses. The two-year Associate in Science Degree is designed to train professionals for area health care facilities.

Plans for the coming year also include a pilot program of Child Care for School-Age Children. It will train students to care for latch-key kids and is an expansion of the Early Learning Child Care Program.

Another innovative program is Ornamental Horticulture Technology. Initial courses are scheduled to begin on North Campus during Fall term of 1988. The program will train individuals in nursery operations, landscaping, and golf course management.

In cooperation with the Palm Beach County School Board, an Associate Degree in Automotive Maintenance Management is planned. The College has added a management training component to this nationally-accredited program.

The Computer Integrated Manufacturing Program has been expanded to add classes on work cells and materials-handling capability. The program will also include an expansion of Computer-Assisted Drafting classes.

Other new programs planned for 1988 include: Aeromedical, Computer Graphics, and the Legal Reference Library.

Programs to be expanded and upgraded include: Foreign Language, Computer Assisted Drafting, Computer Science, Office Systems, Graphic Arts Technology, Graphic Design, Commercial Pilot, Chef Apprenticeship, Interior Design, and Criminal Justice.

The purpose of the *1988 President's Report* is to inform the public of the College's achievements during the 1987-88 Fiscal Year.

Palm Beach Community College is an Equal Opportunity Affirmative Action Employer. The College does not discriminate on the basis of race, creed, color, national origin, age, sex, marital status, or handicapped status in admission, educational programs, or other programs and practices.
